

SUCCESS IN APPRENTICESHIP

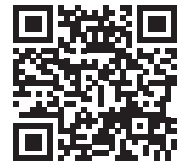

Bow Valley College, in partnership with stakeholders and technical training providers across Canada, developed and piloted a suite of learning materials designed to equip apprentices with the foundational skills needed to support success in technical training.

All resources are now publicly available for use.

successinapprenticeship.ca

Success in Apprenticeship is an open educational resource for instructors, training providers and apprentices, designed to support foundational skill building.

The website provides easy access to an array of ready to use foundational skills resources, focused primarily on reading, using documents and numeracy within the context of the trades.

- 100+ authentic trades related lessons, workbooks and activities, demonstrating the relevancy of foundational skills within apprenticeship and trades occupations.
- Static and interactive resources suitable for face-to-face and remote online training delivery models.
- Creative Commons licensed resources designed to be flexible and easily incorporated into existing training programs.
